

Driving from the south/ Lithuania to Rugumi

If you have a smartphone with Google Maps, simply enter "**Rugumi**" (Ziemupe) as the destination and download the offline map before departure. Then you are independent of the holey mobile network.

How to get there: From south/ Lithuania, drive straight on to Liepāja. Take the **A13 / E272** north over the Latvian border. You are now on the **A11**. Attention: Google Maps might try to suggest a different route, but be sure to drive over Liepāja! The other roads are partially unpaved.

After passing through Liepāja, drive out of town the **P110** or the **A9** to the **P111** heading north (Ventspils). (Do not drive the road on the coast via Karosta).

On the **P111** it is from the small town **Kapsede** to the turn left to Saraiki about 7 km. It is 3.5 km to **Saraiki**. At the end of the village turn right at the fork in the road towards **Ziemupe**. After 4.9 km of unpaved road, drive under a small tunnel of trees. After 800m you will see a small sign "**Camping Rugumi**" on your left. Here you turn diagonally left. After 160 m you park in the parking spot immediately left.

To register please come to the reception. This is in the caravan top left in the garden. - Welcome here in Rugumi, you've made it!
